Portfolio:
michalninburg.weebly.com

I have experience in product design (web, desktop, tablet and mobile), brand identity, marketing design and managing a team. I'm a fast learner, a multi-tasker, a great team player, I have strong communication skills and I'm extremely organized.

I'm looking for a UI/UX position.

Work Experience //

2013 - Present: Freelance Product Designer

- Product design, user experience and user interface design for start-ups
- Web and marketing design
- Branding identity, illustration and print design

2017 - 2019: UI Designer at Cellebrite

- User interface design for a leading global digital forensics company
- Designing complex web applications for different platforms - web, desktop, tablet, mobile
- Creating a unified, fresh, clean, up to date look and feel for the company's products from scratch
- Creating design guidelines and working with Google Material Design
- Working on multiple projects simultaneously with different deadlines and requirements, in an agile environment
- Conducting graphic QA on the products
- Working directly with R&D teams, project owners, product managers, UX writers and UX designers

2015 - 2017: Art Director & UI Designer at eToro

- UI and brand identity design for a leading online financial company
- Managing the studio's tasks and time schedules, and leading the studio's designers and developers
- Creating the company's multi-lingual marketing materials from conceptual level to execution in various campaigns, landing pages, banners, emails, booth design and print products. Markets include Europe, Russia, the Middle East and China
- Working with all the company's departments

2014 - 2015: Graphic Designer at Feuerstien Design

- Print design and prepress preparation, packaging design and execution, icons, logos and illustrations
- Managing the various projects and working with the studio's clients

Volunteer Experience //

2019 - Present: Startup Designers Mentoring Program

I guide, assist and mentor other designers from the Startup Designers facebook community

Education //

2019:
Online UX courses at Pluralsight

2009 - 2013:
Bachelor of Design in Visual Communications (B.design) from Holon Institute of Technology

2005:
Full High School deploma from Hadarim High School in Hod-Hasharon

1994 - 1997:
Elementary School in the United States

Military Service //

2006 - 2008: Naval Operations Room
I served in a demanding and challenging role as a member of an operations team. My duties required professional knowledge, the ability to function effectively under pressure, responsibility and managment skills
